Online Safety & Social Media

Dear Parent / Guardian,

Many of our children enjoy spending time at home playing games and watching videos on a range of devices such as tablets, phones, TVs and games consoles. Whilst many of these games are harmless, many of these apps, games and entertainment platforms are increasingly letting users interact with one another. Notably, apps such as Roblox, Minecraft and YouTube allow children to link up with other players, often including those they do not know personally.

At Woodfield, we take every opportunity to ensure children understand the importance of online safety and are able to actively support parents in ensuring their child's online safety at home through advice and support.

With these recent developments in mind, we encourage parents to regularly check any technical equipment their child uses and discuss online safety with their children.

Should you have any questions, concerns or need for advice on how to keep your child safe online, please contact school via the main office.

Regards,

Mr J Wardle
Online Safety Lead

The Rose Learning Trust.
