Every day your child will be tested in school on their times tables knowledge using our Times Table Olympic Challenge.

This involves a 3 minute daily test where children must get all of their answers correct to move up to the next level.

This booklet contains all the facts they need to know to succeed in each level.

Please help your child to practise at home.

Quarter Finalist

Children must know their 10 times table and recall a selection of multiplication questions in three minutes.

Semi-Finalist

Children must know their 2 and 5 times tables and recall a selection of multiplication questions in 3 minutes.

Finalist

Children must know their 2, 5 and 10 times table and be able to recall a range of multiplication and division questions in 3 minutes.

Bronze-Medalist

Children must know their 2, 3, 4 and 5 times table and recall a selection of multiplication and division questions in 3 minutes.

Silver Medalist

Children must know their 3, 4, 6 and 11 times table and recall a selection of multiplication and division questions in 3 minutes.

Gold Medalist

Children must know their 7, 8, 9 and 12 times table and be able to recall a selection of multiplication and division questions in 3 minutes.

Olympic Champions

Children must know their times tables up to 12×12 and recall a selection of multiplication and division questions in 3 minutes.

European Champions

Children know their times tables up to 12×12 and can recall a selection of multiplication questions in 3 minutes.

World Champion

Children know their tables up to the 12 times table and can recall 100 multiplication and division questions including related decimal facts in 3 minutes.
